

REACH Declaration

AMI Elektronik GmbH & Co. Produktions KG hereby confirms that it is aware of the requirements according to Article 33 of the REACH Regulation (Regulation (EC) No. 1907/2006).

If substances of very high concern (SVHC) of the current candidate list of the ECHA <http://echa.europa.eu/candidate-list-table> are present in our products above 0.1 % mass fraction or if we become aware of them, they will be reported to the SCIP database of the ECHA.

Conformity assessments with regard to REACH conformity are prepared on a product-specific basis and can be requested at any time at info@ami-elektronik.de

The EU-suppliers of articles, which are processed in our products in a relevant amount, are also obliged to inform us without request, if the products delivered by them contain a SVHC-substance above 0.1% by mass. If we receive such information from our suppliers and thus become aware that the 0.1% mass threshold for a SVHC substance is exceeded in our products, we will also report this information to the SCIP database of the ECHA.

In addition, we obtain written assurance from all relevant EU suppliers that no SVHC substances exceeding 0.1% by mass are contained in the products supplied.

We conclude separate agreements with all non-EU suppliers of articles that are processed in our products to a relevant extent. In these agreements, we are assured in writing that we will be informed immediately if the 0.1% mass threshold for an SVHC substance is exceeded in a product delivered to us.
